

HELU Schweißtechnik Handzangen

Integrierter Transformator

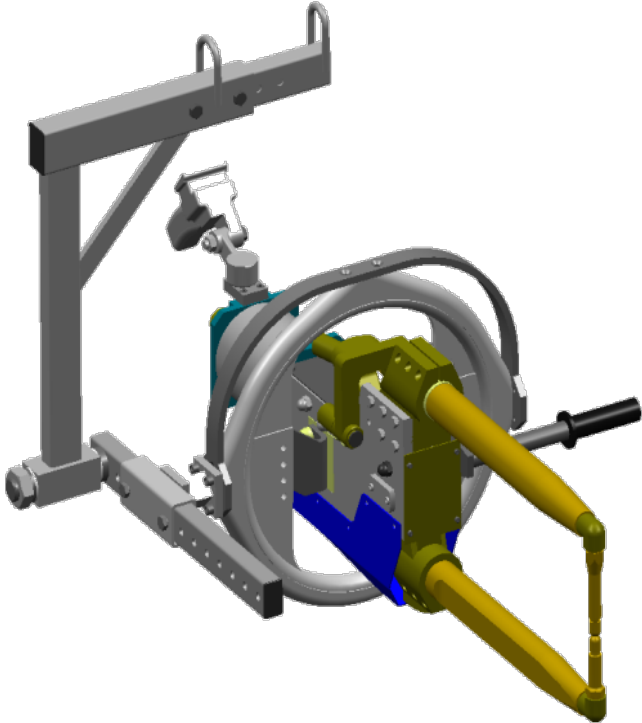

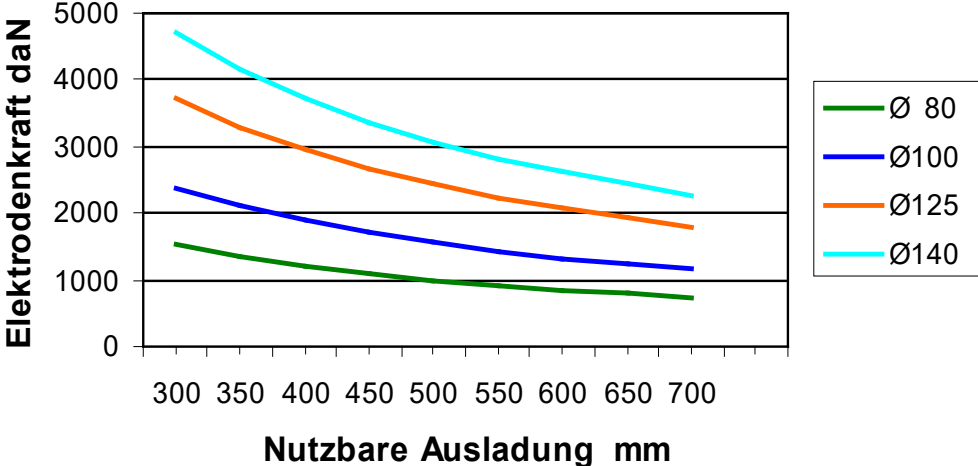

Kabel-Handzangen

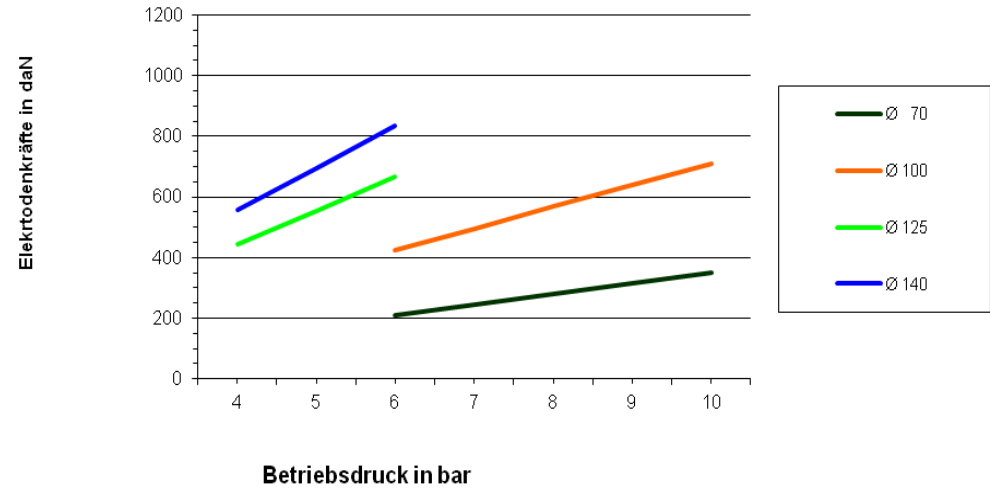

- Trafo-Handschiweißzangen
 - Integrierter Transformator AC/MFDC
 - Geringe elektromagnetische Strahlung für den Werker
 - Kleinere Transformator Größen
 - Höherer Wirkungsgrad
 - Weniger Verluste
 - Größeres Gewicht

- Kabel-Handschiweißzangen
 - Transformator extern
 - Höhere Verluste
 - Höhere elektromagnetische Strahlung für den Werker
 - Geringeres Gewicht
 - Kompakt und einfach zu bedienen

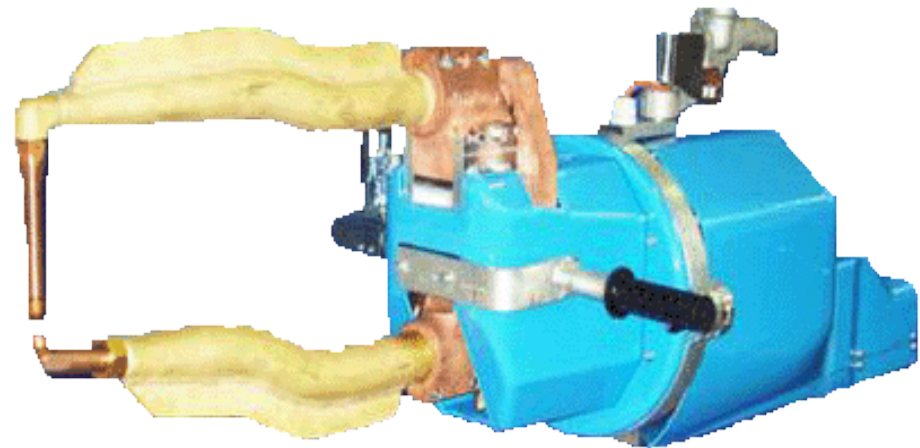

Elektrodenkräfte bei 5 bar

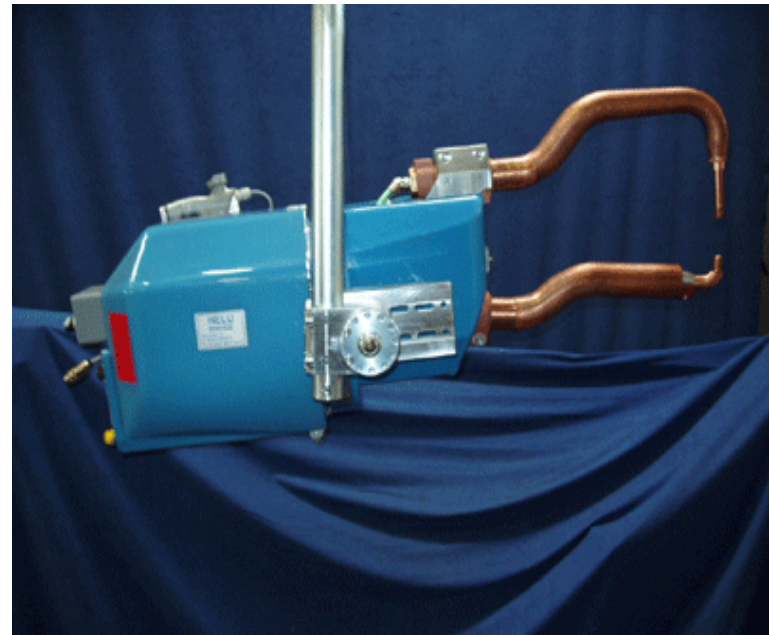

Elektrodenkräfte

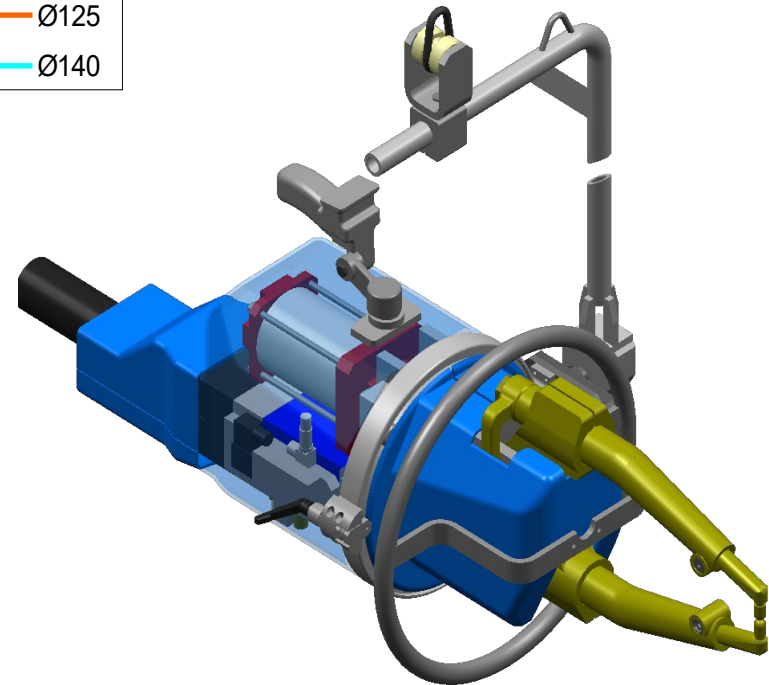

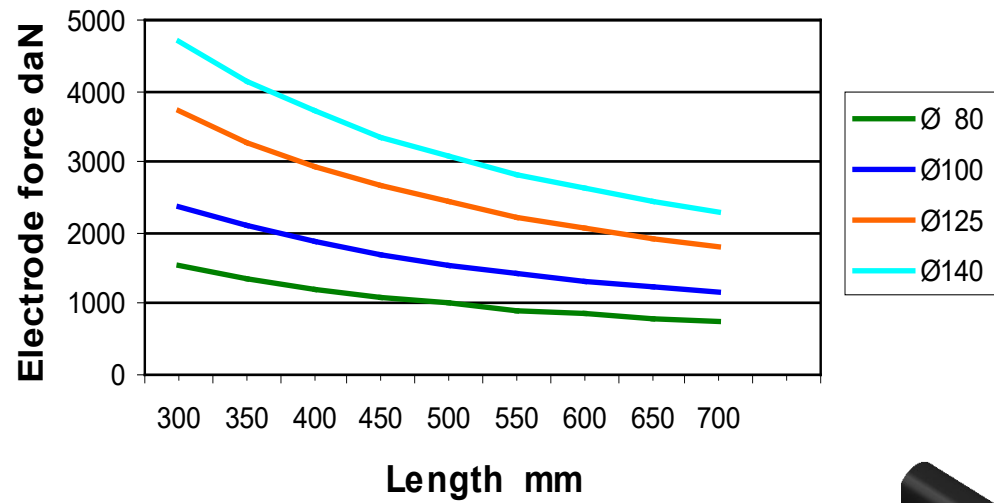

- Ergonomisch
- Kompakt
- Wartungsfreundlich
- Volkswagen hat die HELU Konstruktion für den eigenen Haus-Standard übernommen

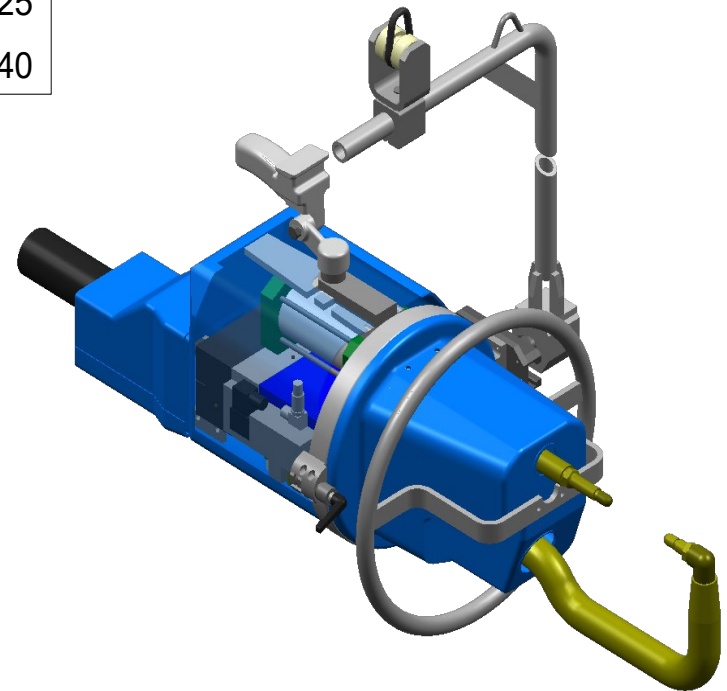

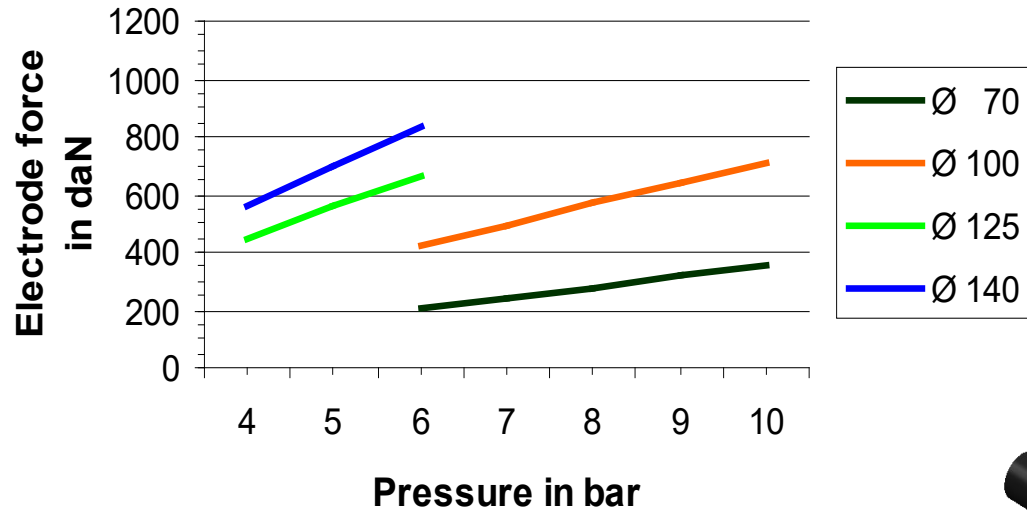

max. Electrode force at 5 bar

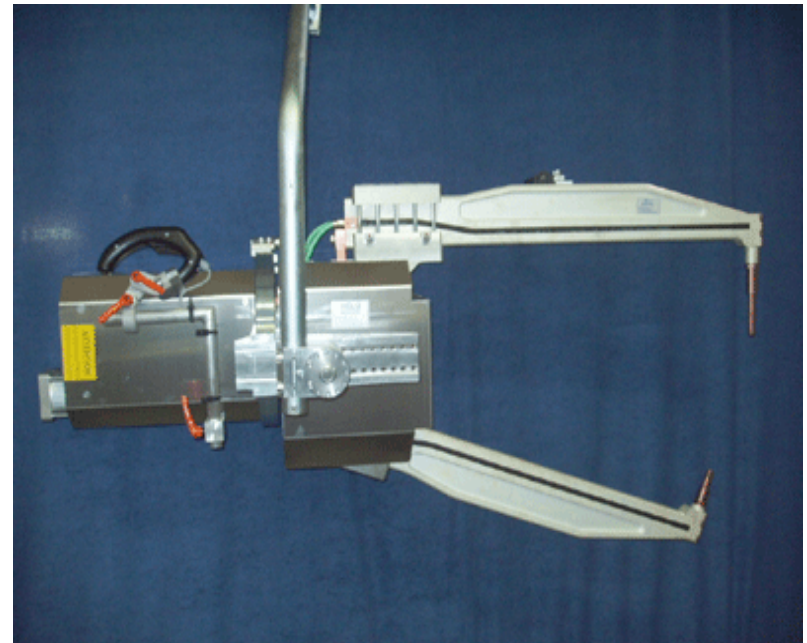

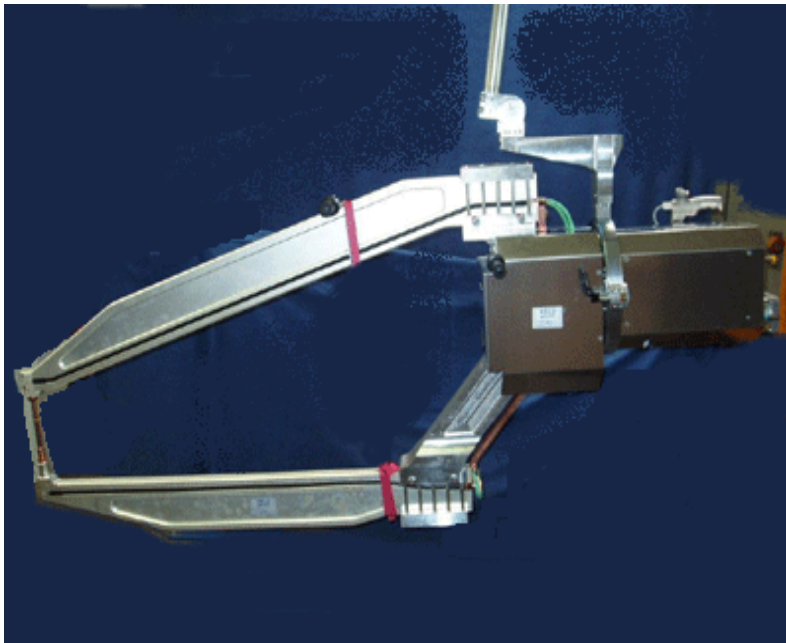

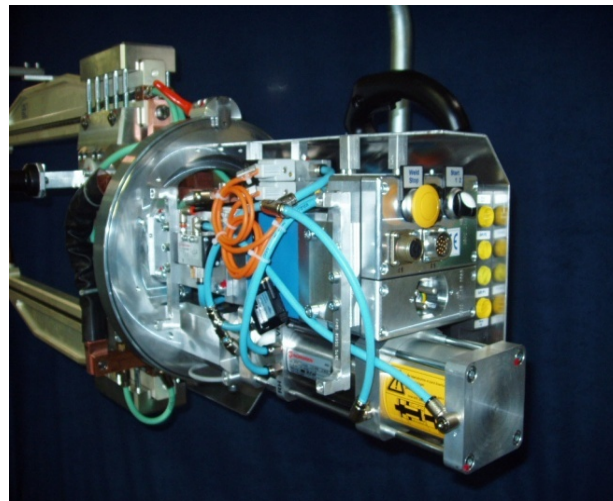

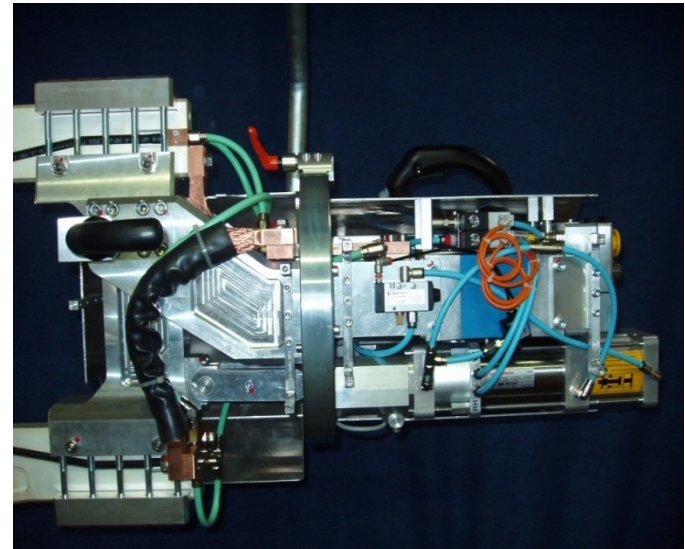

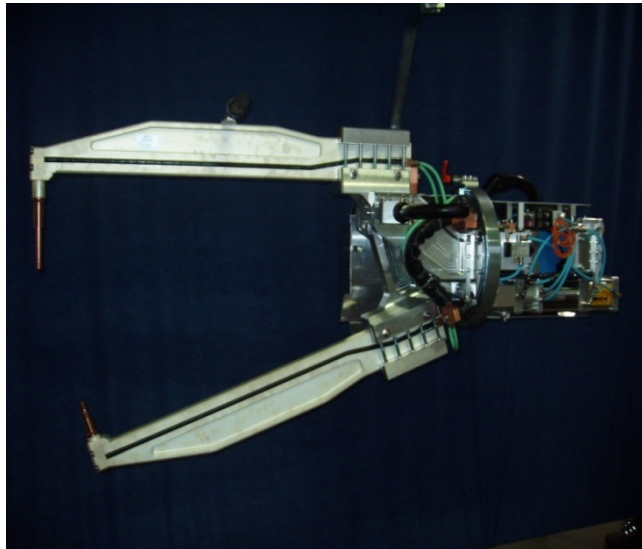

Electrode force

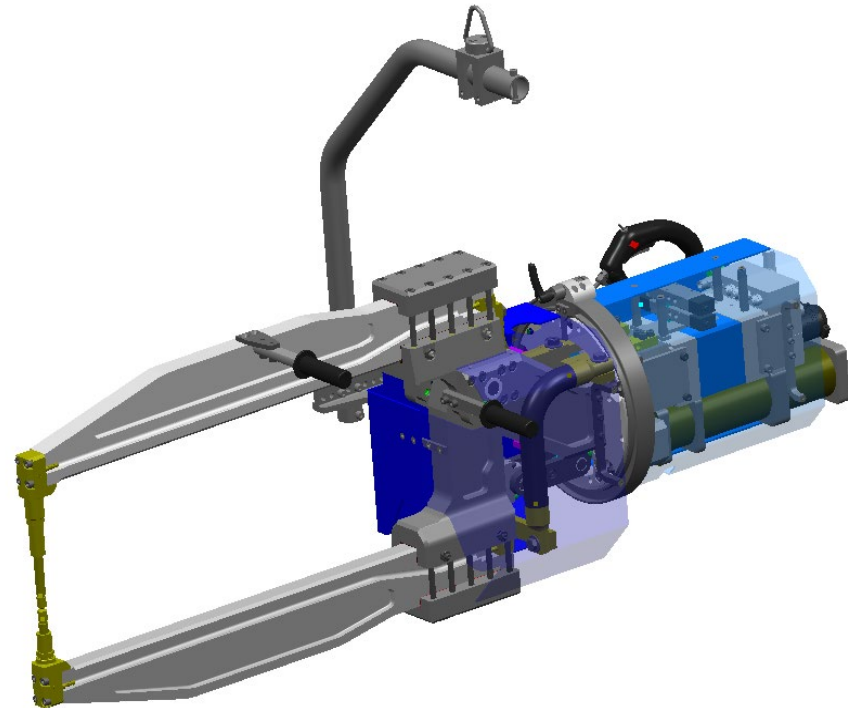

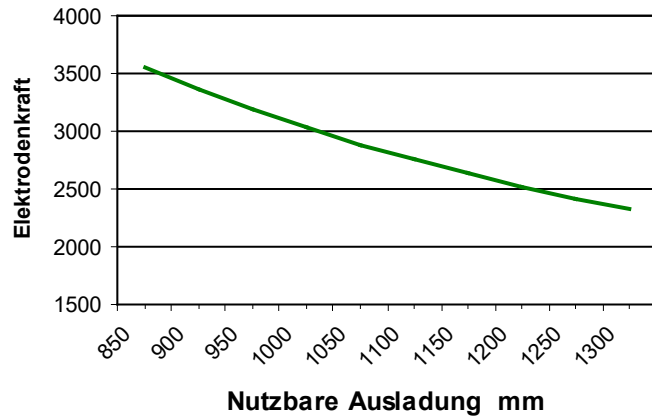

- Stabile Konstruktion
- Hohe Schweißkräfte
- Nutzbare Ausladung bis 1500 mm

max.Elektrodenkräfte bei 4bar
